EDUCATION

BSc Computer Science
University of Dar es Salaam UDSM
2023 – Present (Final Year)

Advanced Certificate of secondary Education (PCM)
Jude Secondary School
2020 – 2022

Certificate of Secondary Education
Jude Secondary School
2016 – 2019

TECH SKILLS

IT Audit and Controls
IT General controls · Application controls · Risk Assessment

Languages
Python · TypeScript · Java · JavaScript · Dart

Frontend
React · Next.js · Flutter · HTML/CSS

Backend / API
FastAPI · Spring Boot · REST JWT auth · RQ workers

Databases
PostgreSQL · MySQL · Redis Supabase

DevOps / Cloud
Docker · GitHub Actions AWS (EC2/S3/RDS) · Linux

Networking
Security · TCP/IP NAT · DHCP · PTP/PTMP

Tools
Git · ERP Systems · Postman · Figma · VS Code

PROFESSIONAL PROFILE

Final-year Computer Science undergraduate at UDSM with cross-sector exposure spanning financial services, ISP operations, and enterprise software. Experienced in IT systems deployment and management, network infrastructure, and IT audit & controls concepts. Thrives on structured problem-solving, adapts quickly to new environments, and communicates technical findings clearly to non-technical stakeholders.

PROJECTS

ERPNext SaaS Control Plane · FastAPI · Next.js · Docker · PostgreSQL · Redis · GitHub Actions
github.com/godblesskaaya/ERPnext-saas-control-plane

- ▶ Built a full multi-tenant provisioning platform: tenant onboarding, lifecycle management, automated backups, and Stripe billing webhook integration
- ▶ REST API with JWT auth (refresh-token rotation), rate limiting, async RQ workers, and a Next.js admin dashboard
- ▶ CI/CD pipeline: pre-commit secret scanning, 70%+ test coverage gate, Alembic migration checks, Docker build validation

Soko Mtandao · Flutter · Dart · Supabase · PostgreSQL
github.com/godblesskaaya/soko_mtandao

- ▶ Cross-platform e-commerce app for Tanzanian SMEs; single Dart codebase targeting Android, iOS, and Web with Supabase backend

WORK EXPERIENCE

Technical Consultant & Machine Operator · Splash Media Limited
Oct 2022 – Present

- ▶ Manage computerised embroidery, screen printing, and large-format digital print systems in a live production environment
- ▶ Diagnose and resolve technical faults; reduced equipment downtime and improved throughput
- ▶ Advise clients on print specifications and feasibility, translating constraints into business decisions

Community Service Teacher · Akeri Secondary School
Oct 2022 – Jun 2023

- ▶ Taught Chemistry and Physics to about 400 students; designed lesson plans and measurably improved student performance.

PRACTICAL TRAINING (UDSM)

Network Operations Intern · Habari Node PLC (ISP)
Jul – Sep 2025

- ▶ Configured Mikrotik routers and sector antennas via Winbox: IP addressing, NAT, DHCP, firewall rules for guest and internal segments
- ▶ Performed on-site CPE installations — premises survey, LHG radio alignment, RJ45 termination, end-to-end connectivity verification
- ▶ Resolved wireless interference via spectrum scans and channel reconfiguration; supported PTP/PTMP backhaul realignment using real-time dBm monitoring

IT Support Intern · UTT Asset Management and Investor Services
Jul – Oct 2024

- ▶ Deployed workstations end-to-end: BIOS, Windows 10 install, domain integration, static IP assignment, software rollout
- ▶ Maintained network printers and routers; resolved IP conflicts; administered Ubuntu Server VMs via SSH
- ▶ Built an investment calculator modelling compound growth for lump-sum and periodic contribution scenarios
